

K9 HEATER Mounting Template

Read all instructions before installing or using this heater.

The K9 Heater must be fixed with a minimum gap of 100mm from the ceiling of the kennel to the top of the heater. There must be a minimum gap of 100mm on each side and the bottom of the heater must be a minimum of 500mm from the kennel floor / dog bedding.

-----**TOP OF K9 HEATER**-----

You may wish to use this template as a guide for pre marking the screw and plug hole that you will need to drill.
